

BROKEN SWORD

THE SERPENT'S CURSE

PARIS IN THE SPRING.

Shots ring out from a gallery. A robbery – a murder – and the beginning of another epic, original Broken Sword adventure...

An adventure that will hurl intrepid lawyer George Stobbart and sassy journalist Nico Collard onto the trail of a murderous conspiracy forged in the cauldron of conflict and betrayals of war-torn Europe.

A conspiracy whose roots lie in mysteries older than the written word.

In an ancient curse forged by the Devil himself.

Armed only with logic, integrity and a wry sense of humour - can George and Nico outwit evil forces both ancient and modern and save mankind from disaster?

The game will be released in late 2013 on: Windows PC, Mac, Linux, iOS, Android, PlayStation Vita
